

Washable Keyboard and Mouse

The keyboard and mouse are made from white, antimicrobial silicone and are fully sealed against liquid dirt, dust and spills. All 108 keys are soft and cool to the touch. The Keyboard is backlit with 4 brightness levels of blue LED making it easy to work - day or night. Simply Lock the keyboard to clean thoroughly with hospital grade cleaners without any damage to the keys. Paired via USB means these accessories will never be misplaced.

With a min. warranty of 1 year, the Washable Keyboard and Mouse are built and shipped from California, USA.
